

AKB-421UB-MRP

19" 1U Rackmount Keyboard Drawer with Scissor-Switch Touchpad Keyboard

This ultra-slim compact keyboard is designed according to EIA-RS-310C specification, which can be mounted to any 19" rackmount cabinets and meets any industrial environment requirement. The Industrial Compact Scissor-Switch Touchpad keyboard combines the control of an integrated GlidePoint touchpad with the features of a scissor-switch keyboard to provide quiet typing and great tactile key response. The 1U drawer allows for space conservation and system security while panel mount model offers immediate system access. This rackmount drawer is made from high-grade, heavy-duty material to withstand harsh environment operations. With unparalleled comfort design unique to the keyboard series, you will be confident in choosing these high quality input devices that are also fully USB compatible. Simply connect the keyboard to an existing system to use.

Built-in Touchpad

The Glidepoint® Touchpad technology provides superior cursor control and its central positioning on the keyboard offers ultimate comfort. The built-in touchpad also eliminates the need for a mouse and saves valuable desk space.

Compact 1U and Ultra-Slim Design

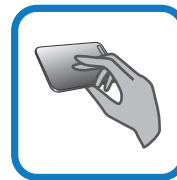

This keyboard is designed according to EIA-RS-310C specification, which can be mounted to any rackmount drawers and meets any industrial environment requirements. This keyboard offers an ultra-slim design, measuring 0.4" in thickness.

Scissor-Switch Keys

The slim low-profile scissor-switch keys are designed to offer a quieter and faster typing response —the same great typing feeling as laptop keys.

19" 1U Rackmount Keyboard Drawer

This rackmount drawer is made from high-grade, heavy-duty material to withstand harsh environment operations.

Built-in Touchpad
