## IMPORTANT NOTICE

The Tru-Form is designed to significantly reduce fatigue in the hand, wrist and arm muscles by allowing them to function in a more "natural" position. This position may feel different at first.

Through extensive after-market research and in-depth focus group sessions, we have learned that most people adapt to an ergonomic keyboard within the first few days of use. It may require a longer period of time to adjust for others. Please allow a sufficient amount of time to be accumulated. You will find the time you invest will pay you back many times over in ease of use and comfort.
