LIMITED WARRANTY

Adesso provides a one year limited warranty for all of its products against defects in material and workmanship.

During this period, Adesso will repair or replace any product which proves to be defective. However, Adesso will not warranty any product which has been subject to improper freight handling, shipping abuse, neglect, improper installation or unauthorized repair. The warranty will not cover products installed with components not approved by Adesso and products where the sealed assembly trace has been broken.

If you discover a defect, Adesso will, at its option, repair or replace the product at no charge to you provided you return it during the warranty period with freight charges pre-paid to Adesso. Before returning any product, you must obtain a Return Merchandise Authorization number (RMA). This RMA # must be clearly marked on the outside of the package you are returning for warranty service. Be certain to also include your name, shipping address (no PO Boxes), telephone number, and a copy of the invoice showing proof of purchase in the package.

Quick Start Guide

INSTALLATION

1. Insert the USB Receiver into an available USB port such as the one on your Smart TV and turn ON the keyboard/ remote with the ON / OFF switch on the side . The keyboard will be discovered automatically and you are now ready to use your keyboard!

④

CONNECTING THE REMOTE

1. Hold down the "SET" button for 4~5 seconds

2. Aim the Remote's infrared LED at your original remote

⑤

CONNECTING THE REMOTE (CONT...)

3. Press any button on the Adesso WKB-4030 Remote (light will flash 2 times then stay on while processing button internally).++

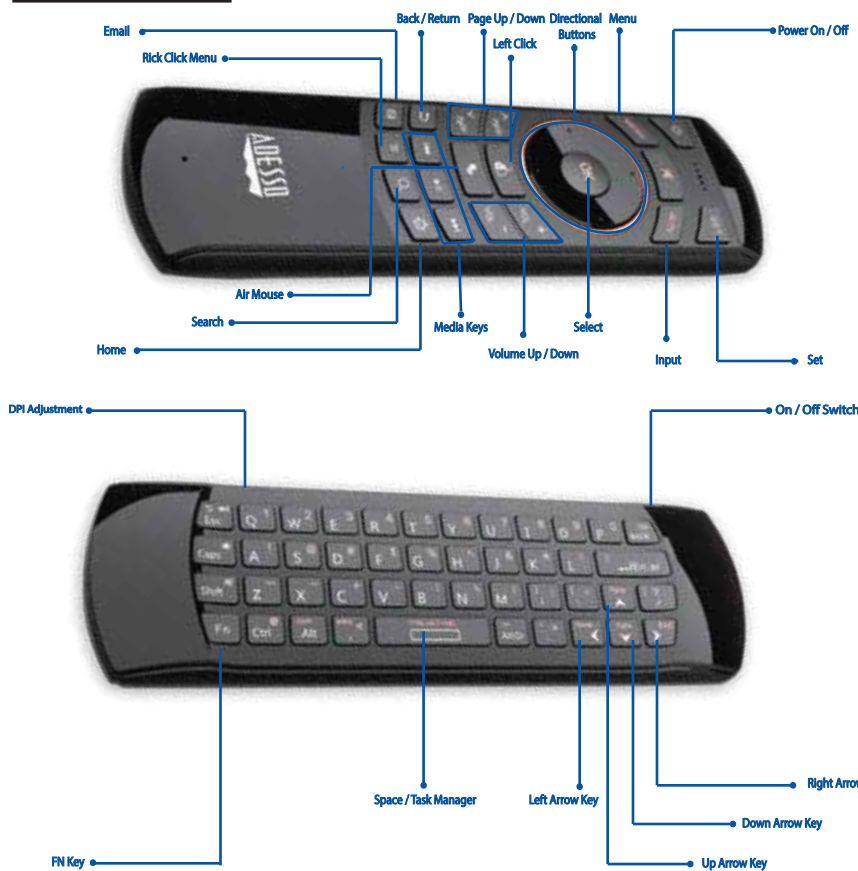

4. Press any button on your original remote (WKB-4040's light will flash 3 times then stay on once it has successfully learned the programming.)

NOTE: Repeat steps 2-4 until ALL keys are learned. Hold the SET key down for 10 seconds to stop learning process.

⑥

DESCRIPTION

⑦

USING THE AIR MOUSE

The Air mouse function relies on specific keys to activate. In Air Mouse Mode, the mouse will follow your gestures in any direction to help you perform the moving, clicking, dragging, etc. At anytime you can use the "Lock" button to lock and unlock the Air Mouse feature.

AUDIO FEATURE (OPTIONAL)

Audio feature configuration is available for this device, including Microphone, Speaker, Audio port, etc. Particularly, users can switch from voice broadcasting mode between terminal and keyboard by Audio Switch. Under some systems, the audio feature requires manual configuration.

SWITCHING OFF KEYBOARD AFTER USE

It is highly recommended you fully power down the device when not in use using the ON/OFF power switch on top of the unit. Also to avoid losing or misplacing your USB receiver, please put back into the back compartment of the keyboard for safe keeping.

⑧

CURSOR DRIFT CORRECTION

When used for long period , the cursor may automatically drift, or may not follow the hands-down direction of the cursor movements. The cursor may need to be correct or recalibrated.

- To recalibrate the cursor perform the following steps:
- Make sure keyboard is turned on, and is set flat on the table.
 - Press FN and then release the left mouse button. Wait about 3 seconds and the calibration should be complete.

AUTO SLEEP AND WAKE FEATURE

The keyboard also features an auto sleep and an auto wake mode. If there is a long period of inactivity, the keyboard will automatically go into a sleep mode. During the sleep mode, you can wake the unit up by pressing ANY key EXCEPT: FN, CTRL, Space, WIN. The 2.4 GHz receiver and keyboard's RF indicator will continue to flash and will not power down while in sleep mode.

CHARGING THE BATTERY

The device has a built-in lithium rechargeable battery. Only the included cable should be used to charge the built in battery. When it is time to charge the device, a warning indicator light will appear on the keyboard. The LED light will flash continuously at a fast pace and the keyboard may behave abnormally. When charging the device with the included cable, the LED will be a red color. Once unit is fully charged, the red LED light will disappear and you can continue use of the keyboard.
